

Course Overview

Diving Emergency Specialist

Program #HST.006

Continuing education is an important way for divers to continue to hone their diving skills and improve as divers. Divers Alert Network understands the importance of being an active and involved diver who takes the time to learn about not just new dive techniques, but techniques to care for yourself and others injured in a dive accident. To recognize this commitment to dive safety, DAN has created a recognition program called Diving Emergency Specialist. The DES designation is a way to commend divers who have sought out the training they need to be prepared buddies and safer divers.

Candidates who have completion the following programs at IVS qualify for this DAN recognition. The required programs are:

1. Advanced First Aid & Basic Life Support
2. Advanced Oxygen Provider
3. Marine Life Injuries & On-Site Neuro

Once you have completed the three required programs, Indian Valley Scuba will proudly process the completed DAN application and award you the DES certification at NO COST to you!

Agency Certification
