COURSE NAME Advanced Recreational TriMix

CERTIFICATION AGENCY IANTD
PADI*

PROGRAM #TEC.225
COURSE FEE \$150

MINIMUM AGE 18

For many technical divers nitrogen narcosis is just accepted as part of performing dives to depths beyond recreational diving limits, but it doesn't have to be! The Advanced Recreational TriMix course trains divers on the use of TriMix to a depth of 160 fsw with a END of no more the 80 fsw. Through the use of TriMix gas blends divers will experience the same mental clarity at 160 fsw as they do at 80 fsw. With a clearer head response times to situations at depth are decreased resulting in a safer and more enjoyable dive experience. Imagine how much more you'll see and remember on your dives without the mental "fog" of nitrogen narcosis.

Course Name/Certification Offered

IANTD Advanced Recreational TriMix
PADI Tec 45 TriMix Diver*

Student Prerequisite(s)

Recreational TriMix
PADI Tec 45 or Equivalent

Classroom Session (s)

2 [8 hours]

Confined Water Session

N / A

Open Water Dives

4

Breathing Gas(es)

Primary Air, EAN to 40%, Trimix

Deco EAN to 50%, EAN to 100%

Administrative Forms

- IVS Required Equipment List for Technical Diving Courses
- IVS Model Release
- IVS Medical Statement & Divers Medical Questionnaire
- IANTD Liability Release

Required Student Materials

- Technical Diving Equipment Setup
- Adv Recreational TriMix Student Kit

Recommended Student Materials

- TriMix Dive Computer
- TriMix Analyzer
- Backup Multi-Gas Dive Computer
